SUBJECT: Basis of Payment for Concrete Structural Members

EFFECTIVE: May 18, 1999, Letting

The method of measurement and basis of payment for some concrete structural members is being changed. Prestressed I beams and bulb tee beams will now be measured and paid for by the meter (linear foot). There will no longer be measurement and payment per each or lump sum. Prestressed box beams will continue to be measured and paid for by the square meter (square foot).

The attached recurring special provision 707-B-138 must be used for contracts which include concrete structural member pay items and are scheduled for lettings through August 1999. It does not appear on the May 1, 1999 Recurring Special Provisions Menu. Beginning with the September 14, 1999, letting, the content of the special provision will appear in the Supplemental Specifications. The new pay items and code numbers for concrete structural members are as follows:
